

Better decisions. Predictable outcomes.

Varetis, Inc. is a systems-driven, data-enabled operator delivering medical claims and revenue cycle management, analytics, workforce support, and technology solutions to government agencies. Building upon more than 28 years of federal experience, Varetis combines experienced professionals, disciplined processes, data-driven decision making, and technology-enabled innovation to help customers reduce risk, improve efficiency, and achieve predictable outcomes.

Varetis Differentiators

- **Technology-Driven Execution:** Varetis is a systems-driven operator that helps our partners make better decisions, execute more effectively, and achieve predictable outcomes. Unlike traditional contractors that primarily compete on labor and price, Varetis combines experienced professionals, disciplined processes, data-driven decision making, and technology-enabled innovation to deliver measurable value and reduce the total cost of execution.
- **Data-Driven Decision Making:** Our team leverages data, analytics, and disciplined processes to improve visibility, support decision making, and enhance operational performance.
- **Value Over Price:** Our team is dedicated to competing on outcomes, efficiency, risk reduction, and customer value rather than lowest-cost delivery.
- **Integrity and Accountability:** Our culture is built on truth, transparency, disciplined execution, and trusted partnerships.
